FURNITURE

I have taken great care in selecting my stock for this Fall's business, getting one car of goods from the East and have just unloaded another from the West, thus getting the best things from both sections, and the benefit of buying in large quantities. My stock is the most complete in Wallowa County, such as the Sealy Non-Tufted Cotton Mattresses, guaranteed for 20 years; The Globe Wernick Elastic Book Cases, new and up-to-date patterns in Bedsteads, Extension Tables, Davenports and Lounges; the reclining Royal

Experiments With Sand.

A very interesting fact about the ordinary sand of the seashore is that a pint of dry sand and half a pint of water when mixed do not make a pint and a half, but a good deal less. If you fill a child's pail with dry sand from above the tide mark and then pour on it some water the mass of sand actually shrinks. The reason is that when the sand is dry there is air between its particles, but when the sand particles are wetted they adhere closely to each other; the air is driven out, and the water does not exactly take an equivalent space, but occupies less room than the air did, owing to the close clinging together of the wet particles.

A Cure For Balking.

A farmer thus cured a horse of balking: He went to a stack of wood for a small load, but his horse would not pull a pound. He did not beat him, as most men would have done, but simply tied him to a tree and left him there. At sunset he went to the stack again, but the horse still refused to draw. So he put a blanket on him and left him there for the night. In the morning he still refused to draw, but at noon, being hungry, he started at once and drew the load to the house. The farmer then returned and got another load before feeding him and then gave him a good dinner.—London Family Herald.

"And after marriage?"

FINISH OVERLAND TRIP TO CALIFORNIA

DAVIS PARTY ARRIVES AT WATER—VISIT AT LODI AND TURLOCK.

Following is the conclusion of Arva Davis' letter telling of the overland journey from Enterprise to Central California:

September 26th we traveled to Dry Lake, 8 miles from Burney Valley. It has been raining every minute since we came here. I want to mention about the snow. We find here several patches along the road which reminded us of Wallowa; the name of this mountain is Magee.

September 27 we left Dry Lake and traveled through Kintuck at half past eight, and drove on to another small place called Whitmore. We traveled through timber all day today and we all delighted in looking at the very tall pine trees, with their pine burrs hanging from them, some of which were 12 and 15 inches long, very much larger and longer than those we've seen in Washington and Oregon. But we were glad when we drove out of the timber, where daylight seemed brighter.

September 28th we drove to Anderson and camped over night. We find the weather much warmer, as we are now in Sacramento Valley. September 29th we left Anderson and drove to Red Bluff. We found it to be a very pretty place. It is situated on the Sacramento river. We camped over night here. The population here is 13,000.

September 30th we drove to Chico, 42 miles from Red Bluff. We found this to be a very nice little town also. It is trimmed up nicely with foliage and has several nice city parks. We camped there over night.

October 1st we all arose early, expecting to get an early start, but soon found we had a sick horse. Instead of starting on, Mr. Davis went and got a veterinary, who treated it for a founder, and soon after it began to grow better. Because of

the horse not being able to travel we remained at this place two nights, and enjoyed ourselves immensely while we were there, taking in the city park, vineyards, groves, etc.

October 3. We now think our horse getting a good deal better, we will undertake to travel on. We left Chico about 2 o'clock in the afternoon, it looking a good deal like rain. We drove to Mr. Gum's ranch in Sacramento Valley, just fourteen miles from Chico.

October 4 we left Mr. Gum's ranch and drove to Marysville, which was 40 miles from Mr. Gum's. Perhaps you will think us hard hearted to drive our sick horse so far. We began to try to find feed for our horses, and a camping place at 4 o'clock, but every fellow we would ask would tell us to drive on to the next place.

Nine Cars Cattle And Hogs Shipped

Stock Sent Out Wednesday After Waiting Several Days For Cars.

Nine cars of stock, six of cattle and three of hogs, were shipped from the Enterprise yards, Wednesday. The cattle were bought by Kiddie Brothers and were in charge of Chandler. Combes & Hotchkiss shipped two of the cars of hogs and W. I. Dishman the other one. All the stock was sent to Portland. It had been in the yards several days waiting for cars.

RADICAL DECISION BY SUPREME COURT REVERSING AND REMANDING EMMONS CASE

Two important cases appealed from this county have been reversed and remanded by the Supreme court—the State vs. Al Emmons, and Longfellow vs. Huffman.

The Emmons case was for a violation of the local option law. He was found guilty by a jury at the May term and sentenced to serve 30 days in the county jail and pay a fine of \$300.

The Supreme court has made a decision of great moment on the local option law in reversing this case, declaring the indictment must allege that the giving away of liquor was with the intent to evade the law and in effect stating that giving a person a drink in a purely social way is not a violation of the law. Burleigh & Boyd were Emmons' attorneys.

The facts in the Longfellow vs. Huffman case are well known by our readers, it having been in the courts for several years. This is the second time it has been to the Supreme court. The suit is for the difference in the value of lambs that were to pay for sheep bought by the Huffmans of N. C. Longfellow, lambs having increased largely in value while the Huffmans paid the note given for the sheep. The case was last tried here in May, the judge directing the jury to return a verdict for the defendants. This verdict is now reversed and the case remanded for new trial. D. W. Sheahan is attorney for Mr. Longfellow, while J. S. Hodgins and Judge Crawford of LaGrande appeared for the defendants.

FLORA MAN CHARGED WITH STEALING HORSES

A. F. Hockett of Flora was brought to Enterprise, Friday, by Deputy Sheriff Moore, and lodged in jail

to await the arrival of an officer from Spokane, where he is wanted on a charge of stealing a team and a pony. The Spokane authorities learned of the whereabouts by his filing on a homestead and wrote Sheriff Marvin his description. Marvin phoned to Moore to bring him in. Hockett is about 53 years of age.

Shoots At Wife; Kidnaps His Baby

Wheeler Southwick Is Charged With Grave Crime Committed at Joseph.

Wheeler Southwick of Wallowa was arrested at Trout Creek bridge, a mile west of Enterprise, Friday night between 8 and 9 o'clock, and lodged in the county jail charged with shooting at his wife in Joseph a couple of hours before his arrest.

Southwick has not been living with his wife, whom he married two years ago, Mrs. Southwick and her 14 months old baby residing with her parents, Mr. and Mrs. C. J. Hewitt, at Joseph. Mr. Hewitt says Southwick came to the house Friday night just at dusk and took the child by force in spite of the protestations of its mother, who followed him to the buggy where the husband fired a shot at her. The buggy was then driven rapidly away.

Mr. Hewitt's son was sent for, Sheriff Marvin phoned, a livery rig secured and Southwick and his livery rig pursued. Sheriff Marvin got in the buggy here and the other rig was overhauled at Pace's, just west of this city. Sheriff Marvin got out and commanded Southwick and his driver to halt. He was standing on Southwick's side of the buggy. Southwick pointed his revolver at Marvin and asked who he was and on learning it was the sheriff turned the weapon toward the dashboard. Marvin grabbed the revolver and wrested it from Southwick, then got in the buggy and brought him to town. The baby was taken back to its mother by young Hewitt.

The revolver is a six-shooter with five loaded and one fired cartridge in it.

Long Litigation Ended.

The long series of litigation between the Fisk and Wood families over 300 acres of land near The Buttes, on the docket under various phases and names, has been settled by the Wood family buying out all the interests of the Fisks.

This litigation began over 10 years ago, and during that time the heads of the two families have died. The land in controversy has quadrupled in value since the first suit was begun. D. W. Sheahan has been the attorney for the Fisk family since the start; the other side being represented by various attorneys at different stages of the litigation.
